Letter of Commitment for Assessment of DFS and Health Systems

Date: 13th December 2019

To Digital Square,

I am writing this letter in support of the University of Washington's proposal for "An Assessment of DFS and Health Systems" led by Dr. Richard Anderson in collaboration with the FinTech Center at the Information Technology University, Lahore under the supervision of Director, Fintech Center Lubna Razaq. This to commit that ITU will extend its complete support in carrying out this project in Pakistan.

University of Washington, Seattle and Information Technology University Lahore have a long-standing research collaboration on various projects and have partnered in various publications, workshops and field research. For the last three years, the ICTD Lab at UW and Fintech Center at ITU have been working to increase the adoption of Digital Financial Services in the Global South with support from Bill & Melinda Gates Foundation.

Regards,

Zaheer Sarwar
Registrar,

Information Technology University Lahore
